

Project :

Date :

Cat. No :

Type :

Notes :

Volts :

Application :

The waterproof LED modules **NTM-RGBW-12V** (4 in 1 chip) are perfectly suited for a number of exterior applications and interior where a light accent is needed.

The light modules heat production permits applications directly on wood, plexiglas or other types of plastics, glass surfaces or any clean non porous surface.

- Backlighting or signage lighting.
- Alternative for fluorescent
- Decor for hotels, restaurant, bars, etc.

NTM-RGB-12V (changing color RGB+W 4 colors in 1 chip)

Characteristics :

- Standard voltage 12VDC
NTM-RGBW-12V: 0.91 Watts per module
- Maximum length per circuit:
NTM-RGBW-12V: 50 modules
- 120° degrees beam
- 50,000 hours
- **IP65** standard
- **Working temperature:**
Min -40°C/+50°C Max.
- Mounting : Adhesive 3M film backing or screw
- Can be cut every module see dimension

Options :

- Controller available pour RGB module, consult factory

Ordering Matrix / Specification

Model	Module	Color	Voltage
NTM	05W3	WH white (5000K) WW warm white (3000K) RGB	12V

The module must be connected to a low voltage output power supply according to selected voltage and power criteria
