NTTLC-24W-RGBW-24V

Project :	Date :
Cat. No.:	Type :
Notes :	Volts :

Applications:
The **NTTLC-24W-RGBW-24V** LED light engine is powered by a 6 pces 4 in 1 RGBW Cree. Materials and construction ensures LED longevity while providing maximum lighting output with regards, to lumens and candle power.
Designed for high efficiency and long life suitable for a myriad of innovative architectural and site lighting solutions.
- Architectural, building and facade,
- Column
- Fountains statues, landscape and other elements,

Housing:
Cast-aluminium IP66 housing and rugged construction provides state of the art thermal management and 100% housing heat dissipation since LED is mounted directly on the body allowing full functionality and lighting flux performance at all mounting angles and position. Stainless steal hardware.

Lenses and optical cells/ CRI
Tempered glass, with 4 perimeter gasket pressure points. . Optical assembly is hermetically sealed providing ingress protection. Standard CRI 80 and standard Spot 10 degrees

Finish:
Corrosion and salt spray resistant electrostatic applied polyester powder coat finish for white standard color.

Voltage (50/60 Hz)
**2** 24 Volts

Caractéristics:
- Protocol signal 4 channels
- DMX512
- Can set the address via an encoder (not included see factory)
- IP66 power supply 24 volts (not included)
- 50,000 hours
- Weight: 6lbs (2.7kg),
- Working temperature:
  Min –30°C (-22°F)
  Max +55°C (+131°F)
- Standard with 2 x 0.7m waterproof 5-pin connector

Mounting:
Standard yoke mount

Certification :
Meets and exceeds industry ANSI/UL UL-1598, 8750, CAN/CSA, CSA-22.2 no 250.0 & CSA-22.2 no 250.13 standards for safety and compliance.
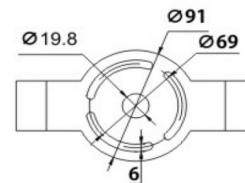

ETL LISTED c us
Intertek
4010322

Accessories

1 meter extension cable 5-pin
TG-EXT

T-through cable 5-pin 28cm each side
TG-TT cable
