◆ Wiring Diagram

1. AC-Dimm series, a new AC/DC LED driver that operate directly from AC line dimmer and provide an isolated, Class 2 low voltage constant current to properly drive the LED luminaires.
2. Lamps must be wired in series, and total value of Vf should be under rated DC Voltage.
3. Disconnect the mains supply before installing, Do not turn on/off from output port.
4. Parameter measured at full load 25 °C ambient temperature.

*****MAKE SURE ALL LED ARE PLUGGED BEFORE SWITCH ON *****

****** MAKE SURE TO MEET THE REQUIRED VOLTAGE LOAD (30 to 48Vdc voltage range)******
