Description:

The **NTALB-183** LED bar is a led profile with anti reflection plate that projects wall washer style lighting.

Voltage:

12 VDC
24 VDC

Housing:

The **NTALB-183** is a high precision extruded anodized aluminum that can accept a LED linear source from normal to high power. Each assembled Led Bar included two (2) aluminum end caps screwed.

Electrical and Electronics:

High quality diodes tested (LM80) and certified life cycle for 60,000 hours (L80). All certified electrical and electronic components have been re-tested over the years for compatibility within products and for specific applications. All products exceed current standards.

NTALB-183

Lens:

The lens is asymmetric frosted which can light up walls evenly.

Power supply not included, consult factory. Consult the LED specification sheet for the appropriate optional dimmers and controls combination for your project.

Mounting:

Mounts directly on surface on bottom of wall or surface or semi recessed on ceiling.

FC Fixed clips (set of 2)

FCS Special clips

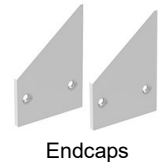

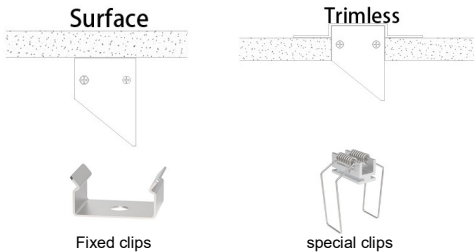

Homologation:

Conforms to ANSI/UL standard UL-2108
Certified to CAN/CSA standard 22.2-9.0

Application/Installation:

The **NTALB-183** LED bar can be installed for or down light diffusion
