Description:

The **NTALB-183** LED bar is a white led profile with anti reflection plate that projects wall washer style lighting.

Housing:

The **NTALB-183** is a high precision extruded white anodized aluminum that can accept a LED linear source from normal to high power. Each assembled Led Bar included two (2) aluminum end caps screwed.

Lens:

The lens is asymmetric frosted which can light up walls evenly.

Mounting:

Mounts directly on surface on bottom of wall or surface or semi recessed on ceiling.

FC Fixed clips (set of 2)

FCS Special clips

Voltage:

12 VDC
24 VDC

Electrical and Electronics:

High quality diodes tested (LM80) and certified life cycle for 60,000 hours (L80). All certified electrical and electronic components have been re-tested over the years for compatibility within products and for specific applications. All products exceed current standards.

Power supply not included, consult factory. Consult the LED specification sheet for the appropriate optional dimmers and controls combination for your project.

Homologation:

Conforms to ANSI/UL standard UL-2108
Certified to CAN/CSA standard 22.2-9.0

NTALB-183

Endcaps

Application/Installation:

The **NTALB-183** LED bar can be installed for or
